

GARDEN BIRDS QUIZ QUESTIONS WEEK 6

There is a lot of activity in gardens, trails and parks.
May be you have spotted some. Quiz prepared by T.Tozzi

1. These two common sights in your garden may appear similar from a distance but are very different. What are they?

2. Three other common sites from the same family but different birds. Name them!

3. Becoming more numerous in urban and suburban areas – a very common sight. What is its proper name?

4. The sweet warbling we wake up to and equally heard at dusk..our very own Blackbird, seen below. But what colour is a female Blackbird?

5. Here are three common and related sights in our garden and elsewhere in urban and suburban settings. Name this trio.

6. This fella is seen lurking up and down tree branches and swoops down quite majestically. What is it?

7. A colourful member of the crow family hence has natural intelligence. A distinctive shriek can sometimes wake you from your slumber..

8. Another colourful visitor to our garden with a distinctive sound and will bully smaller birds away from nutfeeders, can you name it?
