Please keep this side:

Name: _____

Date chosen for Baptism: _____

Infants and young children are baptised on the understanding that at least one parent is a baptised and practising catholic. Parents stand before God to take on a great responsibility. They will be promising to support their child in the new life of Jesus Christ received at Baptism. This they will do through making their home a place where there is love and caring, peace and forgiveness and a place of prayer. The example of parents in regular attendance at Sunday Mass is especially important. It is only in such an atmosphere as this that a child can grow in the new life of Jesus Christ. Parents do not do this alone, and the Church welcomes your child into the Christian Community in this Parish.

God Parents:

You should think carefully about choosing Godparents. It is customary for a child to have two Godparents, who will help in the Christian upbringing of the child by prayer and example. At least one Godparent must be a practising Catholic, who should have been confirmed. A non-Catholic baptised Christian may act as a Christian witness to the

Baptism.

It is customary to offer a donation to the Church.
